# Dart / Flutter Developer (m/f/d)

Welcome to Welliba! We provide business solutions for general mental fitness and wellbeing to engage and empower workforce ecosystems. Our vision is to help create flourishing individuals, teams and organizations. We welcome ideas and initiative. We give all employees the opportunity to apply their strengths and to grow both professionally and personally and to develop the brand Welliba further. We live up to our ideal of wellbeing.

## YOUR MISSION

You have the main role in the development of a new app. You will work with our team to translate business, security and design requirements into a multi-platform app. You will follow the process from conception to launch and bring your idea and experience to the project. Writing code and finding pragmatic solutions are your passions.

## YOUR JOB

- Develop and implement a completely new app with Dart and Flutter to achieve the highest standards of performance, security and user experience
- Work closely together with other experienced backend developers, product managers and designers to develop new widgets and features
- Form a new mobile application development team with experienced and young developers
- Draft architectural decisions together with our Tech Lead and explore new technologies

## YOUR PROFILE

- You have 3+ years of experience in building complex customer-facing applications
- You are very proficient in App development and had first touch points coding in Dart, alternatively experienced in related technologies (e.g., Swift, Objective C, Java, Kotlin or C#)
- You have a deep understanding of the basics of mobile app development
- You write well-structured, efficient and maintainable code and actively keep the quality of the code base in check
- You have excellent analytical and problem-solving skills
- You are used to working in an English-speaking environment

## WHAT'S IN IT FOR YOU?

- The opportunity to work in a cutting-edge field with some of the best people in behavioural science and technology
- Lean hierarchies and short decision-making processes.
- Flexible working hours and location according to your needs, with our office being located in Hamburg
- A team of enthusiastic and dedicated people that are fun to be with
- International working environment and English as company language
- State-of-the-art tech stack running on Azure
- Free choice of computer and operating system
- Competitive salary
