## UX / UI Designer (m/f/d)

Welcome to **WELLIBA!** Welliba, the Digital-Wellbeing-Companion, is an app that empowers employees to be **WELL** and in **BA**lance. It helps them manage their wellbeing, activate their resources, and unlock their potential. Our vision is to help create thriving individuals and organizations all over the world. Our team is highly engaged, dedicated to bringing our vision to live, always open for new ideas and fun to work with. We give all teammates the opportunity to apply their strengths and to grow both professionally and personally and to develop the brand Welliba further. We live up to our ideal of wellbeing.

### YOUR MISSION

You have a central role in the conceptualization and design of our web, iOS, and Android apps. You translate user and business needs into impactful design solutions. You develop new, visionary product features from the idea to a fully specified concept and high-fidelity design. You are interested in designing effortless and beautiful apps that make a difference. You question the status quo and try to get the best out of our technical and conceptual capabilities.

### YOUR JOB

- Drive Product Design, work closely together with our Product teams
- Support new initiatives around products, features, and functionalities
- Drive our corporate design by creating and maintaining design templates for our external communication
- Work with Figma on wireframes, low-fidelity mockups, and usable prototypes
- Coordinate with our IT and UX teams to get the best out of our technical capabilities
- Critically question limitations and expand the possible
- Inspire others and pro-actively collaborate with other teams within the firm

### YOUR PROFILE

- You have passion for user-centricity and a good eye for UI design
- You are an enthusiastic professional with a degree related to user experience and/or user interface design
- You are proficient with Figma or similar wireframing tools
- You think critically about the possibilities of designing UI elements and consider UX in the whole process
- You work independently, think out of the box, and appreciate a challenge
- You are fluent in English, German is a plus
- You are located in Germany or Ireland

### WHAT'S IN IT FOR YOU?

- The opportunity to work in a cutting-edge field, with some of the best people in psychometrics and technology
- Competitive salary
- Lean hierarchies and short decision-making processes
- Flexible working hours and mostly remote work
- A team of enthusiastic people that are fun to be with
- You are free to use hardware of your choice
- An environment to grow, be creative, and further develop your skills
